

**JUDICIAL PROCEEDINGS PANEL
REQUEST FOR INFORMATION SET # 5**

93. DoD: What resources (cost, manpower) would be required to modify the DSAIDs database to include information from retaliation reports related to sexual assault? How long would it take to incorporate that capability into the DSAIDs?

DoD	(DoD SAPRO) If approved and funding allocated, modernization of the Defense Sexual Assault Incidents Database (DSAID) to capture and report data elements about retaliation allegations will likely incur an estimated cost of \$914,000.00 and contract out-sourcing for approximately 24 months of development and testing time.
